### PREK3

Students are learning the Pledge of Allegiance, recognizing letters, numbers, shapes, colors, capable of writing their names, mastering using safety scissors, prayers, virtues and so much more.

### PREK4

Our preschool program is designed to prepare students for Kindergarten and provide the structural foundation for success in years to come. Our preschool curriculum is centered on guiding and developing your child's growth spiritually, socially, emotionally and academically. We encourage independence and strive to build their self-esteem.

### KINDERGARTEN

Our Kindergarten is a place where your child will grow as a reader, writer, and problem solver. In Kindergarten your child will be encouraged to become a confident learner and independent student.
